REPORT  
2023**

# MESSAGE FROM THE DIRECTORY

HOPING FOR A BETTER WORLD

RENZO CAIMI SOLARI  
CEO

It is with great satisfaction that we present our first Sustainability Report, a significant milestone in our ongoing commitment to become a company that respects and protects the environment, supports our community and values our employees.

Not only does this report mark progress on our sustainability journey, but it also reflects our dedication to the principles set out in our "Vision 2022-2026," which guides our every action and decision.

It fills us with pride to see the progress we have made so far. However, we are equally aware of the challenges we still face and the work that remains to be done.

We thank you for joining us on this journey to a more sustainable future and are excited to continue moving forward together.

# WE ARE MORE THAN NUMBERS

WE ARE PROUD OF WHAT WE DO
